The More You Know

RED RIVER COLLEGE

Off-Campus Housing Initiative

Red River College Polytech has launched an off-campus housing initiative to help students find safe, comfortable accommodations. We partner with SpacesShared, a platform that connects students with local hosts and manages the process to ensure a positive experience for both parties. You can find more details about SpacesShared and how it works on their website: SpacesShared <https://www.spacesshared.ca/home>

While Red River College Polytech does not directly vet students for off-campus housing, our partner SpacesShared conducts a thorough screening. This includes verification of personal ID, phone number, email address, student status, and a formal criminal background check before a student is matched with a host.

You may notice a one-time onboarding fee of CAD 50 charged by SpacesShared to cover their administrative costs. To support and promote this initiative, Red River College Polytech will cover this fee for the first 20 host enrollments, so those hosts will not be required to pay. Additionally, the onboarding and registration process is completely free for hosts, and they will not incur any fees at any point during registration.
